Charlotte Water / Architectural / Engineering Services

FY23 Professional Engineering and Land Survey Services for Watermain and Sanitary Sewer Street Main Design/Extensions Contract #2 - CANCELLED

This contract is for professional services in support of the Design and Construction Division. These contracts will allow Design and Construction to assist with LCR projects which typically require a longer and more complicated design process which in turn is more costly. Examples of reasons for increased cost in LCR projects versus typical street main extensions would be the need for geotechnical investigation or wetlands investigation and permitting.
