Airport Fire Department Fluorine Free Foam

The Charlotte Douglas Airport Fire Department is expecting delivery of a new crash truck around August/September of 2025. As part of this update, they will be transitioning to fluorine free foam for this truck, current trucks and all future crash trucks in their fleet and therefore are seeking a new multi-year contract for the purchase of fluorine free firefighting foam. All Products and component parts furnished under the Contract shall comply with the specifications and terms and conditions.
