Arc Flash Testing

Charlotte Douglas International Airport is soliciting proposals from qualified (professionally licensed) Electrical Engineering Consultants who have the knowledge, experience, and capability to complete an arc flash and shock hazard evaluation, calculations, and labeling for all facilities to support the safe operation and maintenance of electrical infrastructure and comply with applicable regulations and industry practices. Time is of the essence. The consultant shall ensure available resources, as necessary, to facilitate work in a timely fashion. The evaluation, calculations, and labeling are to be performed in compliance with the latest codes and standards associated with electrical safety and arc flash standards including those set forth by IEEE 1584, NFPA 70E, & NFPA 70.
