Asphalt Shoulder Rehabilitation-Phase II

Taxiway Shoulder Pavement Repair Phase II includes the pavement repair of identified taxiway shoulders, runway shoulders, and a blast pad. The Project does not include providing or installing pavement markings, either new or the restoration of damaged existing markings. The bidder will be expected to reasonably avoid damaging existing pavement markings when possible. The Charlotte Douglas Airport (CLT) Airfield Maintenance (AFM) staff will install all necessary pavement markings as well as perform any electrical operations.
