Charlotte Water / Construction

Belmont Lift Station and Force Main

This project will deliver a new lift station and force main to convey wastewater flow from the City of Belmont to Charlotte Water's Stowe Regional Wastewater Reclamation Facility via Charlotte Water's Paw Creek Pump Station. This project will allow the existing Belmont Wastewater Treatment Plant to be decommissioned and eliminate the need for costly improvements at this facility. Due to separate funding sources, the project will be delivered via Design-Bid-Build delivery method through two phases of design and three separate construction contracts.

Details

Posting Number	2025-Q3(Jul-Sep)-CW-12289
Anticipated Posting Date	2025-07-18
Commodity Code(s):	91200, 91340, 91359, 91360
