Charlotte Storm Water Services

CHARLOTTE-MECKLENBURG STORM WATER SERVICES

Partner with Charlotte on Stormwater Management Projects

Charlotte-Mecklenburg Storm Water Services manages runoff, reduces flooding risks, and protects water quality across the City of Charlotte and Mecklenburg County. Engage with us through stormwater RFPs and other city contracts for bid opportunities.

Charlotte-Mecklenburg Storm Water Services is a joint municipal/county stormwater utility that includes the City of Charlotte, the surrounding towns of Cornelius, Davidson, Huntersville, Matthews, Mint Hill, and Pineville and Mecklenburg County. Storm Water Services works year-round to manage residents' drainage and flooding concerns, monitoring surface waters for pollutants, and educating residents about flood safety, pollution prevention, and volunteer opportunities. Businesses can partner with Charlotte-Mecklenburg Storm Water Services through government drainage contracts and drainage maintenance contracts. Explore the city of Charlotte bid opportunities to contribute to repairing and replacing drainage infrastructure, restoring eroded streams and floodplains, mapping floodplains, and managing floodplain development.
