CATS - N. Davidson EV Charger Install

The scope of work for this project is to install a new 1,200 amp, 480/277V service, including feeder connections to a new Duke Energy provided utility transformer. This new service shall, in turn, supply power to the new electric vehicle charging equipment. A total of thirteen (13) level 2 EV dual port chargers and one (1) 200 kW DC fast charger shall be installed. Chargers are owner provided, and contractor installed.
