Charlotte-Mecklenburg Storm Water Design Manual Update

Charlotte-Mecklenburg Storm Water Services (CMSWS) is soliciting Statements of Qualifications (SOQ) from qualified engineering companies (Company or Proposer) to provide Professional Engineering Services to both review existing portions of, as well as update, the existing Charlotte-Mecklenburg Storm Water Design Manual (Project). The intent of the manual review and revision is to <u>not</u> duplicate the old manual based on an Engineering Handbook perspective, but the context should be more of a supporting guide for following CMSWS local engineering specific details, practices and implementation of drainage design.
