CLT Technology Public Wi-Fi

This Contract is to provide a Public WiFi solution addressing the full spectrum of CLT's technology systems. The Work will include, without limitation, program/project management, organizational change management, and implementation services covering the complete lifecycle of technology systems from inception, starting with planning, through design, procurement, configuration, integration, install, test, operational-readiness-activation-training (ORAT), and operation & maintenance (O&M), and replacement. This Public Wifi effort will cover all areas where existing coverage is present and to include any newly constructed areas.
