Charlotte Storm Water Services / Construction

Collective T Storm Drainage Improvement Project

Collective Storm Drainage Improvement Project (SDIP) Series T contains five separate storm water infrastructure repair and improvement projects within the city limits of Charlotte, NC. Work will involve mobilization, earthwork, drainage structures (standard and non-standard), storm drainpipe systems, working over, under, near, and around existing private utilities, asphalt paving, concrete flatwork, water and sewer (relocations, installations and adjustments), foundation protection and any other associated work required by the Engineer. Storm Water maintenance work may be located entirely within or a combination of the street right-of-way, private, residential and commercial properties.
