Concourse D/E Connector Renovations (Design)

Repositioning the major passenger circulation route of the D/E connector between the Atrium to the end of the moving walkways at the approach of Concourse D. Relocating the airline lounge space from the departure level to an upper-level location while expanding it to 40,000 square feet. Providing a new passenger destination and experience at the departures level that will provide increased financial returns to the airport. Providing a service area at the apron level to help with operations within the DECO area.
