

City Wide / Commodities & Goods

Crushed Stone

Crushed stone is used in street paving projects, grading projects, storm water repair projects, and water and sewer line projects. This Citywide contract will be primarily used by the Charlotte Department of Transportation, Charlotte Water, and Aviation. The contract is based on estimated quantities of 12 different types and sizes of crushed stone and sand with pricing dependent upon the City using its own trucks and City personnel to pick up the stone. City certified MWSBE firms may be considered for additional hauling needs when the City needs delivery to specific locations.
