Design of Bridge Repairs

Based on repair needs identified in Inspection Reports, the Consultant shall prepare technical plans and specifications (“Construction Documents”) for the required repairs to the City’s bridges. The Consultant shall prepare two (2) bid documents (including one for guardrail work) that shall include the technical plans and specifications for the bid packages for each bridge, as well as bid information/requirements for potential contractors. The Consultant shall plan completion dates for each bridge so that all bridge repairs will be completed by the contractor before the beginning of the next inspection cycle.
