Charlotte Water / General Services

Dewatering and Cleaning of Process Tanks Service

The Charlotte Water Wastewater Management Facilities (WWMF) digesters are critical infrastructure at the WWMF, which provide environmental stabilization of solids prior to being removed from the site for final disposal. The effectiveness and performance of the digesters and their associated equipment, piping, and valves are negatively impacted by trash, grit, etc. that has accumulated in the tanks. The Charlotte Water Wastewater Management Facilities (WWMF) digested sludge storage dewatering equipment is in need of dewatering and cleaning.

Details

Posting Number	2025-Q4(Oct-Dec)-CW-18981
Anticipated Posting Date	2025-11-07
Commodity Code(s):	91391
