# **Digital Navigation Services**

The City is seeking a company knowledgeable and experienced in the strategy and execution of collaboration between government, private, and not-for-profit entities for the purpose of raising awareness and support of public Wi-Fi projects, increasing internet adoption with communities that have low internet adoption rates, and obtaining and sharing data on household broadband connection and the impact of digital inclusion efforts. Responsibilities include, but are not limited to, providing qualitative and quantitative data around digital needs of households in Charlotte and impact of investments; outreach to the public and partners to promote widespread enrollment of qualifying households to the Federal Government's Affordable Connectivity Plan (ACP); and developing sustainable funding plans with partners around digital inclusion.
