Charlotte Storm Water Services / Construction

Dry Detention Water Quality Enhancement Project

This project includes constructing forebays to increase pretreatment of solids and create sheet flow through the basin, removing and replacing of existing turf grass in the bottom of the basins with a hardier herbaceous vegetative mix that provides more treatment, and modification of outlet structures of basins that increase retention time within the basins to increase pollutant removal.

Details

Posting Number	2024-Q4(Oct-Dec)-CSWS-15863
Anticipated Posting Date	2024-12-17
Commodity Code(s):	74505, 91200, 91244, 91345, 92912, 92915
