

Charlotte Water / Construction

Fiscal Year 2026 Water Main Replacement

This construction contract is designated for the replacement of aging water main infrastructure. The scope of work primarily targets water mains that have reached or exceeded their expected service life and are now contributing to operational challenges such as increased maintenance, reduced reliability, and potential service interruptions. Priority is given to pipeline segments 12 inches in diameter or smaller. This contract supports Charlotte Water's long-term asset management strategy by improving system resilience, reducing unplanned outages, and enhancing overall water service reliability.
