Charlotte Water / Architectural / Engineering Services

Franklin Water Treatment Plant Main Building Renovations - CANCELLED

This will be a request for an Architectural and Engineering service package to retrofit the Franklin Water Treatment Plant Administrative Building. Phase 1 will include overall schematics, the proposed layout of the building, structural assessment, existing conditions drawings, and mapping. Phase 2 will include detailed engineering and structural design, along with architectural design. Phase 3 will include technology requests (Supervisory Control and Data Acquisition system, security, etc.), construction phasing/planning office spaces, finishings, exterior and landscaping. Phase 4 will include project permitting and construction admin services. There is a potential for the renovations to be broken up into smaller projects after Phase 1 is complete. -inactive due to budget reprioritization
