Charlotte Water / Architectural / Engineering Services

FY27-30 On-Call Miscellaneous Engineering Services

Charlotte Water (CLTWater) is the largest water and wastewater utility in North Carolina, serving approximately 311,000 customer accounts. The agency owns and operates multiple water treatment plants, wastewater treatment plants, lift stations, and extensive water and sewer lines throughout Mecklenburg County. CLTWater requires consulting engineers to assist with various on-call projects related to the infrastructure described above. These projects are often small in scope and typically require immediate attention. Because these services are on-call, companies should be able to provide engineering design and construction support within 48 hours of receiving notice. CLTWater will review qualifications and select qualified on-call consultants for the specialties listed in the following paragraph. CLTWater does not expect Proposers to submit qualifications for all specialties. Charlotte Water will select Companies for the following on-call specialties:

- Industrial and commercial electrical engineering, analysis, generation, and distribution
- Water and wastewater conveyance systems analysis, system modeling, planning and engineering
- Water and wastewater treatment plant engineering
- Structural engineering
- Civil/site engineering
- Building engineering – plumbing, HVAC, roofing systems, fire suppression systems and architectural services.

Details
