Charlotte Water / General Services

Golf Village restoration service

Charlotte Water is seeking a company to provide restoration service to Golf Village's driving range, located in South Charlotte. Charlotte Water acquired an easement diagonally across Golf Village driving range for the Steele Creek Pumping Station Replacement project. The project included a force main, which was installed across the property in 2017. The driving range is nearly completely flat, has an uneven grade that blocks drainage, causing large puddles to form after rain. Several attempts to remedy this situation have not been successful. A company will need specialized equipment such as laser-guided construction equipment for grading the driving range to allow for even drainage, 3-5 years experience in restoring a golf course driving range, obtaining all permits, etc.

Details

Posting Number	2022-Q4(Oct-Dec)-CW-7247
Anticipated Posting Date	2022-12-08
Commodity Code(s):	90656, 91227, 91873
