## **Hidden Valley Firehouse #45**

Design and construct a new 2-story, 3-bay firehouse at 14,626 square feet, to be located at 5800 North Tryon Street. This facility will be a new infill firehouse that will alleviate high call volume for surrounding firehouses. A new firehouse must be built when a new "point of dispatch" is required in order to meet response time standards. The proposed facility will be located on a 2.03-acre parcel that facilitates the redevelopment of abandoned/underutilized sites and vacant sites. This location and site selection shall meet the City of Charlotte Policy for Sustainable City Facilities and Charlotte Fire Department Facilities Master Plan. This project will pursue LEED certification. The site will incorporate solar panels and a geothermal well system with water source heat pumps.
