Integrated Pest Management Services

The Airport is seeking a qualified company to provide Integrated Pest Management (IPM) services. The company must supply all necessary supervision, labor, materials, tools, supplies, equipment, transportation, and applicable licenses and permits required to perform these services at CLT. CLT's IPM program is defined as a comprehensive approach to preventing and solving pest issues through education, inspection, identification, sanitation, exclusion, communication, biological and mechanical controls, and, when appropriate, targeted applications. IPM services must be conducted in a way that ensures the health and well-being of both the public and airport personnel. The company is also responsible for removing and disposing of all dead pests covered under this contract. The job site includes approximately 2 million square feet of interior facilities, multiple on-property buildings, CLT buses, and parking lots.
