Joint Operations Center (Design)

The Joint Operations Center design project at Charlotte Douglas International Airport will modify the existing building (South Cargo 6 – Building 228) to provide for the permanent joint operations facility location. The facility will be multi-functional to accommodate Operations (AOC, AEOC, direct support spaces, and administrative offices) and potential support for CMPD, TSA, and K-9 teams. The facility will be upgraded to the necessary structural upgrades, redundant power backups, fiber optic connections, and security requirements.

Details
