

Charlotte Water / Commodities & Goods

## Large Utility Bodies

Charlotte Water will purchase heavy duty truck bodies for replacement vehicles, and new vehicles that may be needed for future operations. Utility truck bodies are installed on separate cab/chassis assemblies which are purchased from a different vendor that is already under contract. The truck bodies purchased on this contract come in different configurations based on the intended use of each specific vehicle. They are installed on trucks used by construction crews in the course of field maintenance and repair tasks throughout the water and wastewater system.
