Charlotte Water / General Services

Leak Detection Services

Charlotte Water is seeking to contract with a qualified firm to provide professional water leak detection services across its residential service lines and public water mains. The selected vendor will be expected to utilize specialized tools and systems capable of detecting underground leaks and identifying areas of current loss with precision and minimal disruption. Services may involve advanced acoustic, chemical, and pressure-based testing methods, along with the use of pipeline diagnostic equipment to support field verification. This work will contribute to Charlotte Water's ongoing efforts to reduce non-revenue water, improve infrastructure reliability, and proactively manage aging assets.

Details

Posting Number	2025-Q4(Oct-Dec)-CW-18576
