

Charlotte Department of Transportation / Commodities & Goods

LED Traffic Signal Modules

The City of Charlotte maintains a large and modern traffic signal system and has for many years used standardized materials and equipment. All materials and equipment used to maintain this system are required to be interchangeable and function with the existing infrastructure. This solicitation is for the purchase of 8" and 12" LED Traffic Signal Modules. All signal modules must meet the regulations and requirements concerning traffic signal lighting in the state of North Carolina. The Charlotte Department of Transportation (CDOT) would like to establish a one-year contract with the option to renew for four (4) additional one-year terms.
