# McAlpine Creek WWMF-Thermal Hydrolysis Preliminary Equipment

The City intends to develop a regional Class A biosolids facility at the McAlpine Creek Wastewater Management Facility (WWMF). Master planning identified thermal hydrolysis pretreatment (THP) followed by anaerobic digestion as the desired process for producing Class A biosolids. As part of implementation of THP at the McAlpine Creek WWMF, this RFP is being issued to solicit THP system proposals from qualified vendors.

### **Details**

Posting Number 2020-Q4(Oct-Dec)-CW-2772 Anticipated Posting Date 2020-11-02 Commodity Code(s): 89053, 93691

## Requirements

Estimated Total Value
The total project value is anticipated to be: \$1,000,000 -4,999,999

**Last Updated: 11/30/20** 

#### Contract Term

The term of the project is anticipated to be:

Through Project Completion

## Special Notes

This project is for the pre-selection of equipment that will be part of a design-build project.
