MS Switchgear Replacement

This project is for the production of engineered documents detailing the replacement of the existing 2500A switchboard 'MS' located in the basement below the main terminal of CLT airport. The existing switchgear shall be replaced with (2) new electrical distribution panelboards and shall have backup power availability through the installation of a generator docking station and manual transfer switch. The new distribution panelboards shall feed all existing circuits energized from existing switchboard 'MS'. After all existing circuits have been refed, existing switchboard 'MS' shall be demolished.

Details

Posting Number	2024-Q4(Oct-Dec)-AVI-14860
Anticipated Posting Date	2024-10-07
Commodity Code(s):	28567, switc
