On-call Emergency Mitigation Clean-up Services

The Charlotte Douglas International Airport's "Building Maintenance Department" is responsible for maintaining a portfolio of various facilities buildings, including the main airport terminal, offices, fire stations, tenant buildings, equipment shops, and among others that house various airport activities. The intent of this (RFP) solicitation is to select one or more companies to provide Aviation's Building Maintenance Department with Emergency Mitigation Clean-Up Services at various locations as identified by the Charlotte Douglas International Airport. This work will consist of rapid response for containment, demolition, disposal, drying, cleaning and decontamination as needed per IICRC standards and RIA guidelines on a per-incident basis for water and/or smoke damage. Services consist of providing all labor, materials, equipment, and supervision for the services as directed by the Charlotte Douglas International Airport's Project Manager. This Contract does not guarantee a certain number of hours, or an annual sum amount to be paid to the Company(s).
