Aviation / Technology Goods & Services

On Call Technology Services

Contract(s) will be used to provide maintenance and support for systems purchased under these Contracts. The goal of the Technology On-Call IT Contract is to support all airport management services leveraging technology systems as needed including but not limited to parking, baggage, gate management, commerce, connectivity, wayfinding, security, ticketing, etc. Services may be applied to any type of airport system. Contracts may include additional software licenses, services, and hardware. The contracts will provide Aviation the necessary flexibility to ensure the needs of the rapidly changing environment are met. It is critical to ensure the Airport's technology systems are stable and safe to allow tenants to connect to their own technology systems.
