Program Management Information System Support Services

This scope of work outlines the provision of comprehensive support services for the Program Management Information System (PMIS) and Work and Asset Management (WAM) system at Charlotte Douglas International Airport (CLT). It includes the continued configuration and implementation of the PMIS to meet CLT's project management requirements, support for accurate and efficient data management, development of customized reporting and analytics, and maintenance of system performance through ongoing support and updates. The goal is to ensure these systems effectively support CLT's project delivery, collaboration, and decision-making processes.
