Strategic Business Technology Roadmap Services

The City is seeking consultant knowledgeable and experienced in the use of business information systems and technology best practice methodologies to conduct a needs assessment and prepare a strategic plan to serve as a road map for addressing the short and long-term technology business systems needs of the City. The plan should contain clear goals and action items that will move the City forward and should be structured in a manner that allows for ease and clarity of implementation by staff and other resources. The Company shall conduct a study of current infrastructure and systems, offer recommendations, determine whether a different direction might improve business continuance strategies, and to discover ways to improve efficiencies.
