Charlotte Department of Transportation / General Services

Transportation Asset Collection

The chosen vendor will provide a segmented inventory of the following transportation assets.

- 1. City-maintained roadways.*
- 2. Traffic control signs and supports on selected state and all city roadways.*
- 3. Pavement markings on selected state and all city roadways.*
- 4. Sidewalks and accessible ramps on city roadways*
- 5. Other vertical elements within the roadway such as tubular delineators, curbing, medians etc.*

A condition analysis of the assets will be included with the inventory The analysis will provide a database of information that will be utilized for work management as well as emergency services during hazardous conditions. The vendor will provide separate ESRI geodatabases with each asset category. Specific table schemas for each asset will be determined prior to data collection.
