Tree Obstruction Remediation

This project involves the remediation of vegetation obstructions within the airspace surrounding CLT. Work will include tree clearing and topping in areas adjacent to the airfield and within the One Engine Inoperative (OEI) surface and Runway Protection Zone (RPZ). Vegetation will be reduced to maintain required clearances at least 20 feet below the FAA Part 77 surface. The total remediation area covers approximately 175 acres and will be completed in prioritized phases based on criticality to airport operations and safety.
