About

About EarlyBird

EarlyBird is a cutting-edge web application developed by the City of Charlotte to simplify the procurement process.

This all-in-one platform offers access to a **comprehensive list of government contracts**, including current and upcoming projects. Through features like keyword searches, commodity code filtering, and tailored project discovery, EarlyBird makes it easier to find the right opportunities.

Whether you're a seasoned vendor or exploring **city of Charlotte bid opportunities** for the first time, EarlyBird bridges the gap between local businesses and **government RFPs**, this tool empowers you to thrive in the competitive market.

How to Use EarlyBird

EarlyBird is designed to help you efficiently explore and pursue gov contracts in Charlotte. Here's how to get started:

1. **Search for Opportunities**

Use keywords, commodity codes, or filters to find the perfect match for your services. EarlyBird provides a user-friendly interface for searching and filtering through a vast database of government contracts.

2. **View Requirements**

Click the orange "Requirements" button on each opportunity to explore detailed information, including project descriptions, deadlines, and contact details.

3. **Stay Informed**

Follow your chosen projects via social media channels to receive instant updates, such as changes in status or new opportunities.

For personalized assistance or inquiries about navigating **city bid opportunities**, contact City Procurement Services. We're committed to helping you connect with impactful city projects.
